

YOUR FUTURE, OUR FOCUS

Self-invested pensions specialist

www.curtisbanks.co.uk

**What you can expect
from working with**

**one of the UK's largest
independent SIPP
and SSAS providers.**

We're SIPP and SSAS specialists.

We don't provide investments of our own, but we do provide access to the open market of investment providers, platforms and brokers. You choose who to use in our pensions.

We'll provide your client with your recommended pension, and accept your instructions to operate it effectively.

We'll provide you, and your client if required, access to our secure portal where you can view up to date information and perform a number of crucial transactions and money movements.

We'll settle the fees you agreed with your client directly from their pension.

We won't contact your clients directly unless there's regulatory or legislative imperative, and even then we'll contact you first.

When things don't go to plan, we'll investigate fairly and impartially and put things right.

What we expect of you.

We don't provide financial or investment advice. We leave that to you, the professionals.

We expect you and your clients to work within the Terms and Conditions of our pensions. They're clear, balanced and are designed to ensure that our pensions are run smoothly and within statutory rules.

We expect you to work within our agreed Terms of Business.

Working together.

Every relationship is important to us.

Working together, we can deliver the recommendation and commitments you've made to your client. We're already looking after the retirement funds of over 78,800* clients - make sure your next recommendation is for a Curtis Banks pension.

Service delivered by us.

SIPPs and SSAS are complex, and no two plans or clients are the same. They can range from a simple single DFM portfolio to multi-investor multi-property syndicates with borrowing. But there are some constants across all plans where we can commit our service levels to you.
